## EXPERIENCE

I have joined IT company called Silverwings Technologies Pvt. Ltd.,  
which first makes us learn technologies and then give us a task to  
build a project related to it.

So frankly it would be my 1<sup>st</sup> internship, but I have somewhat  
knowledge about industrial requirements. So, if selected I will work  
with complete fullness dignity.

And I don't want to exaggerate about myself but want to prove it  
with my skills.

## VOLUNTEER EXPERIENCE OR LEADERSHIP

Never had any,  
But willing to experience it if given opportunity.
